VISION

Residential parks should serve as accessible, everyday spaces that reflect the local community while maintaining each park's unique character. Key focuses include seamless connections to nearby residential areas, walkability, destination playscapes, and spaces for daily recreation. Distinctive landscape image and community involvement in park maintenance are crucial to their long-term success.

OBJECTIVES (refine with the Blueprint approach—Identity, Human-centricity, Ecosystem, and Seasonality)

ZONING

Ensure convenient access for citizens, with clear, but flexible zoning and pathways that optimise use:

	Exceptional:	Excellent:
regular distinctive entrances to the park representing a community identity	Accessibility to the park	
boosting pedestrian, jogging and cycling experience with varied routes	Walkability	
seasonal landscaping, featuring vibrant and ever-changing scenery	Landscapes	
staggered zoning to draw visitors in while highlighting border activities	Zones quality & use
